EDUCATION

University of Southern California

Master of Science in Industrial and Systems Engineering

Cumulative GPA: 3.82/4.0

Coursework: Optimization, Machine Learning, ERP Systems, Supply Chain Analytics

Los Angeles, CA

Aug 2024 – June 2026

University of California, San Diego

Bachelor of Science in Applied Mathematics

Cumulative GPA: 3.6/4.0

San Diego, CA

Sep 2022 – Dec 2023

PROFESSIONAL EXPERIENCE

Zhima Program

AI Systems Engineering

Los Angeles, CA

Dec 2025 - Now

- Developed a financial domain Q&A system by fine-tuning Qwen3-0.6B using LoRA, enabling structured reasoning across market interpretation, risk analysis, and strategy generation
- Built an end-to-end data pipeline to preprocess and augment financial instruction datasets (Finance-Alpaca + synthetic data), including cleaning, filtering, and train/validation splitting into JSONL format
- Developed an interactive financial decision assistant system supporting real-time inference, scenario-based querying, and batch evaluation workflows
- Conducted model evaluation and debugging through controlled test prompts and inference scripts, identifying issues such as output inconsistency and improving prompt design and dataset coverage
- Applied model optimization techniques, including data augmentation (entity + synonym replacement) and dynamic quantization, improving NER robustness while reducing model size and inference latency.

Shelley Whitman Associate

Project Manager

Los Angeles, CA

June 2025 – Sep 2025

- Managed end-to-end development of Mark's Northeast Furniture e-commerce website, tracking 40+ tasks in **OpenProject** and **Jira** to achieve on-time launch.
- Facilitated daily cross-functional departments (web, graphic, illustration) to resolve obstacles, maintain consistency with client requirements and creative vision, and keep deliverables aligned with client goals.
- Assessed risk exposure and optimized resources allocation across three concurrent design initiatives, cutting overtime hours by **15%**.

SKILLS & ADDITIONAL INFORMATION

- **Deep Learning:** PyTorch, LSTM, Transformer, BERT
- **LLM System:** RAG, LoRA Fine-Tuning, Prompt Engineering, AI Agents
- **Framework:** Hugging Face, FastAPI
